

Montana RanchERS Beef Co.

How much beef is right for us?

Just as each animal varies in its size and structure, so does the meat it provides! Your boxes may be filled with slightly different cuts and weights but this is what you can typically look forward to putting in your freezer if you order a quarter, half or whole beef...and if you're looking for a larger or smaller quantity than what's listed, let us know. We would love to work with you!
